

COLOGNE INDEPENDENT

Company Profile

COIN FILM

has been producing about 50 high-end feature films and documentaries for the German and international market for 20 years. Our films are characterized by the extraordinary view of the filmmakers and their socio-political topics. The combination of artistic film with sophisticated entertainment is especially important to us. We often work together with young talents. Many of the films have been created as international co-productions and have been winners at international festivals and film awards. The producers of COIN FILM are Christine Kiauk and Herbert Schwering (Managing Director COIN FILM, Member of the Board Film and Media Association NRW). The company is based in Cologne and Hanover.
